

A Commercial Installation & Maintenance

Engineer is Required.....

.....to join a Poole based company covering mostly Dorset and Hampshire areas.

The successful applicant will need to have experience with Installation, Maintenance and Servicing of a range of Heating and/or Air Conditioning systems, and have up to date Oftec, Gas Safe or FGas qualifications. A willingness to expand their knowledge base, gain further qualifications and occasionally work overtime is also required.

In return we can offer a company van, uniform, full PPE and mobile phone as well as all specialist tools to carry out the tasks expected, own hand tools would be a benefit but are not essential. Hourly rate is dependent upon experience and qualifications held.

Please apply with full CV and covering letter to....
